**Delinquent City Taxes.** 

Notice is hereby given that I, the undersigned, Chief of Police, have been turnished with a warrant from the City Council requiring me to collect the taxes assessed for the year 1833, and now delinquent upon the list and make return of the same within sixty days. All parties so indebted will therefore please take notice and govern themselves accordingly.

C. W. LOUGHERY,
Chief of Police.

Astoria, Oregon, October 25th, 1833.

## TRUE

# Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause -liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

> Itisafact! BROWN'S IRON BITTERS, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old drug-gists and in every particu-lar reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health resulting from intemperance, do more to promote temperance, in the strictest sense than any other means now known.

It is a well authenticated fact that many medicines, especially 'bitters,' are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with Brown's IRON BITTERS. Itisa medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, produc-ing good, rich blood, health and strength. Try one bottle. Price \$1.00.

Vitalizes and Enriches the Blood, Coner up the System, Makes the Weak Strong, Builds up the Brokendown, Invigorates the Brain, and

## -CURES--

SETH W. FOWLE & SONS, Proprietors, darrison Avenue, Bester Sold by all I registe

SLIGHT ODDS. little Story with a Large Moral One Man who Knew his Own Business.

"No. my dear," said the venerable keeper of a country store to a timid little girl whose head scarcely came up to the level of the counter. "No, my dear, we haven't any red fiannel, but we have some first rate New Orleans molasses." Softly hinting that she

didn't think that would answer the purpose quite as well, the child went her way in search of the article she wanted. "Have you BENSON'S CAPCINE PLAS-TER57" asked a gentleman of a certain druggist whose name could be given were it desired. "I am troubled just now with a touch

of my old friend, the lumbago, and the Benson's Plaster seems to go to the spot almost as oon as it touches the skin." "Not at present." replied the druggist, gen-

ially " but, we have lots of plasters just as good. There is Allewek's, the Capsicum and others-won't one of them do as well?"
"My dear sir," retorted the gentleman with a slight show of temper. "I say nothing against those articles, but I am a business man, and always ask for precisely what want, and for nothing else. I may enlighten you, however, when I say that sometime ago for another disease, of which the Capcine has since cured me, I tried all those you mention. with no appreciable benefit. They are ineffi-cient, every one of them, the meanest act of the proprietors of some of them being this : that they make plasters with similar sound ing names to deceive the unwary into believ-ing they are the same thing. Experience taught me the difference. I'll go to the next man in your line. Good day." Be on your guard against imitations. The genuise has the word CAPCINE out cleanly

in the middle of the plaster. All others are

the wheel.

self by eating two handfuls of blue

broke off and he was strangled.

Ella Hill of Seymour, Conn., gother dress wet, and her stepanother would not let her put on her best dress. The girl took her father's gun, put the muzzle over her heart touched the trigger with her toe, and Ella Hill of Seymour, Conn., got put the muzzle over her heart, touched the trigger with her toe, and fell dead.

Christian Burkhardt of Cincinnati, first shot himself in the mouth, thinking to send the bullet iuto his brain. It did not kill him, and he then put the pistol behind his right ear and fired the second time. Still be was not killed, and at the third attempt be missed his head altogether. The fourth time he pressed the pistol against his abdomen. The calibre of the weapon was small, and he is likely to recover from his ly to recover from his wounds.

Methods of Testing Boilers.

It is alleged that the shock of foreing water into a boiler by means of a pump is equal in its effects to a succession of blows which may injure the cession of blows which may injure the shell. As every strain put upon the boiler decreases the final strain necessary to produce rupture, it is reasonable to presume that such a method of testing may so injure the parts that they will finally give way under a pressure much less than that at which the boiler was tested. A plan that obviates this is to fill the boiler with cold water and gradually arrests the progress of Catarrh towards Centrel boiler with cold water and gradually raise the pressure to the desired point by a slow fire. Still another method is to fill the boiler with hot water and then apply the desired pressure by the aid of an injector made for the purpose, which continues to add heat-ed water to the boiler. A relief valve is set to open at the desired pressure, Dyspepsia, Nervous Affections, Can and the duty of the injector is to maintain that pressure, uninfluenced by any leaks, for a given time. A uniform pressure is insured throughout the boiler.
